

## Smooth FormFit with Stand for Samsung Galaxy Tab 3 7.0

Designed using our thinnest material that hugs the curves of your Galaxy Tab, our Smooth FormFit with Stand is the perfect example of the old adage, "Less is More."

## Overview

### THINK THIN

Designed using our thinnest material that hugs the curves of your Galaxy Tab, our Smooth FormFit with Stand is the perfect example of the old adage, "Less is More." With the same durable construction and thoughtful design details found in all our Galaxy Tab covers, the Smooth FormFit takes sleek protection to a whole new level.

### SECURE FIT

Our FormFit with Stand isn't just about good looks — it also provides reliable protection. Just snap your tablet into the fitted frame to securely hold your tablet in place. Just push down on the corners of the frame when you want to remove it.

### NOTHING BLOCKS YOUR VIEW

The overall construction and frame design of the FormFit with Stand is incredibly minimalist, giving you maximum protection without adding bulk. The form-fitting frame is so unnoticeable, it virtually disappears once your tablet's in place.

### QUALITY CRAFTSMANSHIP & MATERIALS

The Belkin Smooth FormFit with Stand is made of durable, device-hugging material that's super soft to the touch. It stretches to the shape of your Galaxy Tab for an incredibly tailored, barely there fit. A velvety smooth inner lining keeps your screen safe and cushioned.

### CHOOSE YOUR VIEWING ANGLE

Position your Galaxy Tab at the angle that suits you best. The inner lining is set with grooves at various positions so you can slide your tablet closer to you or angle it further away — whatever's most comfortable for you.

### FOLDS INTO THE PERFECT ANGLE FOR TYPING

The Smooth FormFit with Stand also folds into a lower, more ergonomic angle that puts less stress on your wrists when typing on your touchscreen.
